CRH Commercial Radiant Heaters

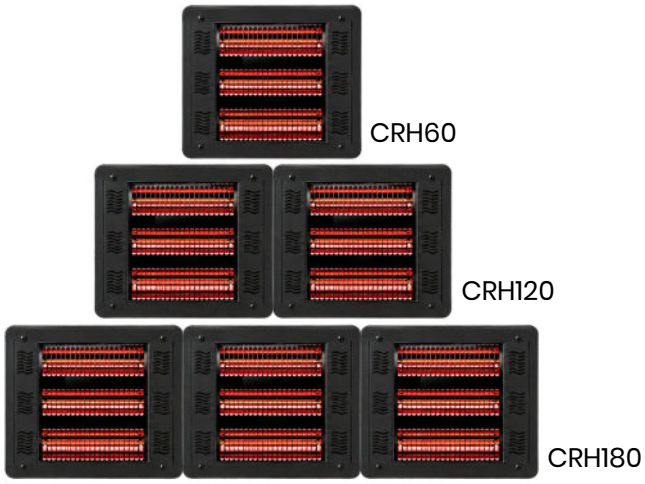

CRH60, CRH120 & CRH180

The CRH commercial radiant heater is designed for heating large spaces with high ceilings, including factories, workshops, airports, worship areas, concert halls, sports halls and stadiums. Using shortwave Golden Infrared technology, the heater delivers rapid radiant heat transfer, making it suitable for industrial and commercial environments where fast response heating is required.

The heater features a robust black anodised aluminium body and is suitable for wall or ceiling mounting. Designed for durability in demanding applications, the CRH provides reliable performance in areas requiring weather-protected heating.

FEATURES:

- 6kW, 12kW & 18kW rated output
- Single/3 phase on CRH60
- 3 phase only on CRH120 and CRH180
- 3, 6 and 9 infrared elements on the CRH60, CRH120 and CRH180 respectively.
- Infrared lamp life is approximately 7,000 hours
- Shortwave Golden Infrared heating technology
- Suitable for large, high-ceiling areas
- Wall or ceiling mounted
- Weather-protected construction
- IP67 rated for water and dust protection

- Black anodised aluminium body
- Designed for industrial and commercial environments
- Refer to user manual for mounting height

Dimensions (mm) & Weight (kg):

Model No.	kW	Height	Width	Depth	Weight
CRH60	6	500	500	150	11.5
CRH120	12	500	1000	150	23
CRH180	18	500	1500	150	34.5

Together we CONSORT it
