

WEEE COMPLIANCE DECLARATION

Electrical products designed and manufactured by Consort Equipment Products Ltd. and sold into the European market are all covered by the EU Electrical and Electronic Equipment Waste directive (WEEE). The aim of the directive is to minimize the amount of material entering the waste stream and to provide funding for treatment facilities in order to maximize recovery and recycling.

A key feature of the WEEE regulations is the division of products placed into the household market and those sold to commercial and industrial customers, and how these are to be managed from a regulatory standpoint. Obligation to comply with WEEE falls to the 'Producer' who in this case is Consort Equipment Products Ltd. at the Milford Haven manufacturing plant.

In order to discharge this obligation Consort has joined the Valpak Compliance Scheme and in turn has been registered with the UK Environment Agency and sales data has been submitted as required for 'Household' WEEE (also known as Business to Consumer WEEE or B2C WEEE). Participation in the scheme ensures that funding will be available for civic recycling facilities when household products reach their end of life.

WEEE PRODUCER NUMBER: WEE/ECO133ZR/PRO

Our WEEE obligation for products sold into the Industrial and Commercial market (also known as Business to Business WEEE or B2B WEEE) entails registering with the same compliance scheme detailed above, and therefore providing an end of life recycling solution for this stream. As commercial and Industrial products are sold into the UK market via our distributors or wholesalers, this usually means that our products move beyond our reach for in house collection.

When our products reach the end of their life the end user may return the product to us at Milford Haven, directly or via a distributor, where we undertake to dismantle it, re use parts where applicable and recycle all other raw materials using an approved AATF. Evidence notes from AATF will be kept for record purposes.

This policy will be communicated to our customers via this policy statement posted on our website.
