

WMH3ERF - Electronic 7-Day Timer Fan Heater with RF Receiver

For Multizone Heating System

Our new range of electronic 7-day timer heaters can be connected to a multizone heating system. Each heater has an RF receiver which communicates with the central control unit, MRX1 Multizone wireless controller. Each MRX1 controller can control up to 8 heaters.

This sleek stylish heater is suitable for either domestic or commercial environments. Ideal for installations such as open plan offices or large conservatories.
