

CSL2SR Convactor Heater - Wireless Controlled

Model CSL2SR convactor heater offers the added benefit of reducing the risk of wall discolouration and delamination through the provision of a built in heat deflector.

- 2kW rating
- Compatible with any Consort wireless controller
- One controller can operate multiple SL heaters
- Virtually noiseless operation
- Reduced risk of wall staining and delamination
- Full length wall bracket for ease of installation
- Automatic safety cut out
- LED indicator light
- Finished in white

Note: All wireless controllers are to be purchased separately.
